Citadel Building Systems Pvt. Ltd.

Enjoy the outdoors from the inside with the all new Cita Dome!

Made of polycarbonate sheets, this bubble dome structure offers the best of both worlds - protecting you from rain, snow, heat and bad weather, while offering unobstructed views of your surroundings and the sky! Feel closer to the natural scenery and appreciate the landscape.

CITA DOME

A Bubble Home

WHY CHOOSE THE CITA DOME?

01 360° FULLY TRANSPARENT DESIGN

The product does not contain any metal skeleton. Don't miss the beauty in any corner with 360° panoramic views.

02 QUICK INSTALLATION / EASY ASSEMBLY

Modular assembly allows installation within 2-3 hours, with low labour cost, short construction period and rapid operation.

03 HIGH SECURITY

The product has passed the EU CE certification. The material has no toxic gas release, and the dome structure is designed with strong wind resistance and excellent impact resistance.

04 HIGH COMFORT

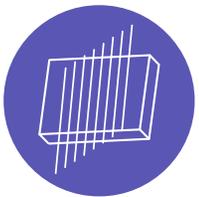

Equipped with a ventilation system and internal sunshade system to ensure indoor living comfort across any season and weather.

05 HIGH RETURN ON INVESTMENT

A cost-effective alternative to glass, which can be 6x more expensive, with low investment giving a high rate of return.

06 LOW MAINTENANCE

Built as a sleek system where the door is fixed, instead of opening and closing on channels. Hence, maintenance and cleaning of tracks is not required.
