

CITADEL METAL CLAD ALUMINIUM PROFILES FOR CEILING AND CLADDINGS

INTRODUCTION

Giving a magical facelift to the high-end exterior construction and architectural industry, Metal Clad unlike the traditional cladding, can be easily fixed in least amount of time, is exceptionally durable, lightweight and maintenance free, weather, moisture and UV resistant as well as eco friendly. In addition, Metal Clad also acts as a thermal insulator, reflect noise, is highly cost effective and can even act as bracing for exteriors.

Ergonomically designed, Metal Clad can be customized and installed as per the distinct demands of clients. Available in a wide variety of textures and colours, Metal Clad can even be installed in a range of profiles and styles to completely change the look and feel of your outdoors. So whether its an existing building or a new construction at any given altitude or even in the coastal area, Metal Clad is the ideal option to achieve a timeless luxurious finish.

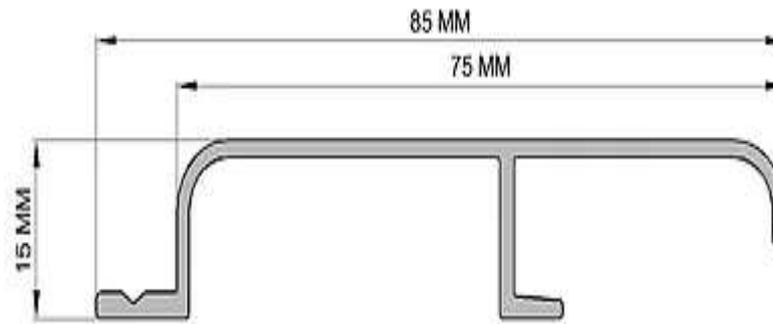

Specializing in exterior wall cladding, Metal Clad also features a gamut of other application options on both exterior and interiors like interior feature walls, doors, gates, canopies ceilings, counter fronts, fences, space dividers and shutters.

CITADEL METAL CLAD BENEFITS:

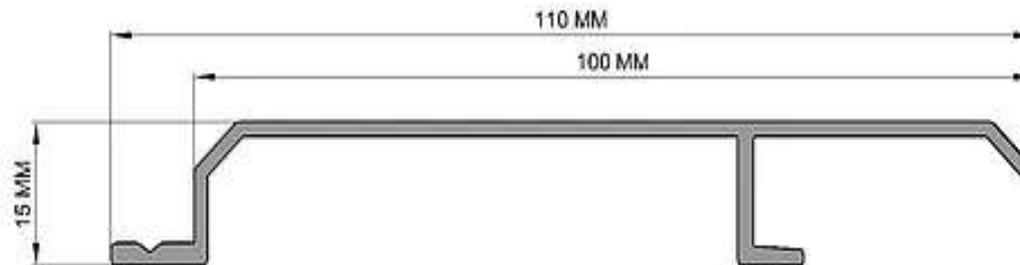

- Non-combustible
- 15 Year Non-Prorated Finish Warranty
- No Maintenance
- Won't rot, warp, peel or fade
- LEED Credits
- Impervious to insects
- Can be recycled or re-coated after the warranty period
- As its Aluminium, it will always have a resale value which means its an investment with return unlike Wood and other options available.
